Would Punish Germans With Prohibition

Rumblings of the forenoon session of the police court having floated away in the wake of the usual crowd of idle spectators who daily visit the police "movie-listener," and no fresh "patrons" turning up at the "peep hole" of the desk sergeant's office, the chatter around Capt. Kehoe's chair turned toward Germany's decision on the peace proposition.

The talk ran back and forth with nothing being brought up that would suit the "fans" of peace until George Ross, police reporter, known as the sage of the cops' castle, rendered the following decision that dispersed the gang for dinner in good humor. Ross said:

"I hope those Huns don't accept the terms. Then the allies can hand it to them right."

Just so'er they end up their old greedy shebang and parcel it out to countries composed of human beings."

A Little Logic On Dress

The genius is exempt from the customs or rulings of dress. We mortals of the minor class cannot afford to look shabby in clothing, for shabby clothes suggest a shortness of cash. The world demands that we all dress a bit beyond our means, but live somewhat within our means, for everyone sees how we dress, while only our friends and the favored few know how we live.

U-BOAT'S CAPTIVE FREED ON DESERTION CHARGE

AYER, Mass., June 20.—Private Paul Lester Nave, whose answer to a charge of desertion was that he had been kidnapped and held prisoner on board a German submarine was given his full freedom today after the finding of the court-martial acquitting him was approved by Maj.-Gen. He disappeared from Camp Devens in May, 1918, and on Oct. 16 reported to the military authorities at Fort Story, Va. In the interim, he said, he was held by the Germans who sought to obtain airplane secrets from him. He was finally freed about two miles off Cape Henry, Va., and swam ashore from the submarine, according to his testimony.

BOLSHEVISM STRIKES MERIDIAN NEGROES

MERIDIAN, Miss., June 20. (Sp.)—Bolshevik propaganda is being spread in Meridian, according to facts reported to the officers. Considerable literature is also said to have been spread about the city.

The unrest among colored labor is also causing some apprehension in official circles and an investigation is being made which shows that agitators are at work among them. Reports have been circulated that the negro women and men are being organized for the purpose of refusing to work only at specified hours. This report involves the cooks and washwomen and many residents are already finding it hard to retain a cook or washwoman. Higher wages are also being demanded.
